

1614 #5
PATENT

MAR 06 2002

RECEIVED

TECH CENTER 1600/2900

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: J. Rahal Examiner: Unassigned
Serial No.: 09/935,966 Group Art Unit: 1614
Filed: August 23, 2001 Docket No.: 13099
For: Methods for Treating West Nile Virus

Kalow & Springut LLP
488 Madison Avenue, 19th Floor
New York, New York 10022

Dated: February 15, 2002

Assistant Commissioner for Patents
Washington, D.C. 20231

INFORMATION DISCLOSURE STATEMENT

Sir:

Applicants submit the following disclosures in accordance with the provisions of 37 CFR 1.97 and 1.98.

I. NON PATENT PUBLICATIONS

Hirsch et al., Nucleoside derivatives and interferons as antiviral agents, *Current Clinical Topics in Infectious Disease.*, Vol. 3:30-53 (1981).

Roberts et al., Phase I Clinical Studies of Ribavirin in High Risk Patients for the Acquired Immunodeficiency Syndrome, *Academic. Press* p. 95-112.

Holmes et al., Lassa Fever in the United States, *The New England Journal of Medicine*, pp. 1120-1123 (1990).

Odelola, Herbert, Antiviral Activity of Virazole on Replication of Viruses Isolated in Nigeria, *Virology*, pp. 334-335 (1977).

Certificate of Mailing Under 37 C.F.R. 1.8

I hereby declare that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to:
Assistant Commissioner for Patents, Washington, D.C.

Date: 2/15/02 Name: J. Colwell

Certificate of Mailing Under 37 C.F.R. 1.8

I hereby declare that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to:
Assistant Commissioner for Patents, Washington, D.C.
